

PRELIMINARY PRODUCT-FAMILY BRIEF

Rubber flanges

Flanged rubber interfaces considered as part of the complete bolted connection.

Illustrative family image. Not a dimensional reference and not a verified Tervanox product model.

Share the flange standard, drilling and service conditions.

01	Part drawing or clear dimensions
02	Media and concentration
03	Operating temperature range
04	Pressure or vacuum conditions

05	Movement and installation constraints
06	Quantity and delivery location

VERIFICATION STATUS	Model identities, materials, dimensions, ratings, tolerances, certifications and performance data are pending client-controlled engineering evidence. This brief is for enquiry preparation only.
